A FEW RECENT TESTIMONIALS
RECEIVED BY OUR ADVISORY BUREAU AT 61, MARLBOROUGH ROAD, N.19

Cornwall, 1943.

Dear Nurse,

You fitted me with a Lambutt Dutch Cap, in early September. . . .

I would just like to tell you how very satisfactory I find my cap, and how grateful I am to you. We are both very much impressed with this method of Contraception. We were getting rather worried about what we had better do, and there seemed no one we could consult about it, and most of the methods we knew of, or had read about, seemed to have so many decided disadvantages, and it is absolutely imperative that we have no children for about three years. I am so very glad I discussed it with my mother, and that she had been to you herself.

Yours faithfully,
(Mrs.) R.

London, S.W.3, 14-2-47.

I am so grateful to you for your service, which takes such a load off one's mind, especially in these difficult times.

(Mrs.) P.P.

Chingford, E.4 1944

I have been using the Lambutt Dutch Cap for 21 years and six months with the greatest confidence.

Yours faithfully,
(Mrs.) A.E.G

Clevedon, 1944.

Dear Madam,

I should once more like to thank you for all the kindness and help you have given me in the past. You have indeed been good to me. I am grateful for all your help and shall always advise any friend of mine to go to your Bureau, if they are needing help or advice. All best wishes for the future.

Yours very sincerely,
(Mrs.) J.M.

London, 1944

Dear Nurse,

. . . It is the most satisfactory thing I have used and I find it very easy to adjust and remove.

Many thanks for your professional assistance and for your nice way of approach to things.

Yours sincerely,
(Mrs.) M.V.

Romford, 1943

Madam,

With reference to my visit to you in January. . . .

I should like to add how satisfied I am with your cap and shall have no hesitation in recommending your Bureau to my friends.

Yours truly,
(Mrs.) P.H.

SPECIAL TO PURCHASERS

All Mail Orders to 200 and 202, Queensbridge Road, Dalston.
Remittances may be made payable to E. LAMBERT & SON, if desired.

We never "circularise" customers, or "follow-up" after having received an order. This is a point worth considering, as some firms have this objectionable habit.

A LARGE part of our business is conducted through the post, and Country and Foreign Orders receive special attention. All orders are executed same day as received (special goods made to order excepted). A record of all home orders received is kept for eight days, by which time it is presumed the goods have been received by the customer, unless we are notified to the contrary in the meantime. The letters are then destroyed. In the case of Foreign and Colonial Orders, a record is kept for six months, after which period the letters are destroyed. All orders, as printed, should be accompanied by a sufficient remittance to include postage on the goods.

When ordering, please give full name and address in block letters and specify the page upon which the appliance appears in this list. The name and address of the sender and full particulars should be sent with any articles returned; and if to be exchanged for other goods, the cost of the return carriage should be enclosed in stamps. Goods for exchange should be returned within 7 days and postage included, and must be returned in the same condition as received.

All parcels are securely packed and every communication is considered *strictly private*.

The attention of customers is called to the fact that the amount of postage should be included in remittance for ALL goods.

Ladies can communicate with the nurse at our Advisory Bureau.

Business Hours: 9 to 6; Saturdays 9 to 1.

SPECIAL NOTICE

WE have an Advisory Bureau for the benefit of married ladies who are in doubt as to the most suitable method to adopt.

Gentlemen can communicate for advice in strict confidence with any of the Directors.

ORIGIN AND PURPOSE OF THE BIRTH CONTROL ADVISORY BUREAU

The Advisory Bureau at 61, Marlborough Road, Holloway, N.19, was originally opened as a Birth Control Clinic in 1925, but was taken over by this Company for the benefit of customers seeking first-hand information and advice on the subject of Birth Control.

Advice is given free, either personally or through the post.

Hours of attendance : Monday to Friday, from 10 a.m. to 6 p.m, alternate Wednesdays to 8 p.m. and every other Saturday to 1 p.m. Saturday afternoons by appointment only. This Bureau is intended primarily for middle-class women, and the fee for consultation and fitting is one guinea —though a reduction is made in certain cases. Patients are seen and fitted by an experienced nurse, but a qualified woman doctor attends periodically and may be consulted by appointment. In connection with the bureau there is a travelling nurse service for those living at a distance. The fee for the travelling nurse is according to distance, plus travelling expenses.

Our Bureau is staffed by married Ladies. Men are not allowed on the premises.

THE BIRTH CONTROL ADVISORY BUREAU

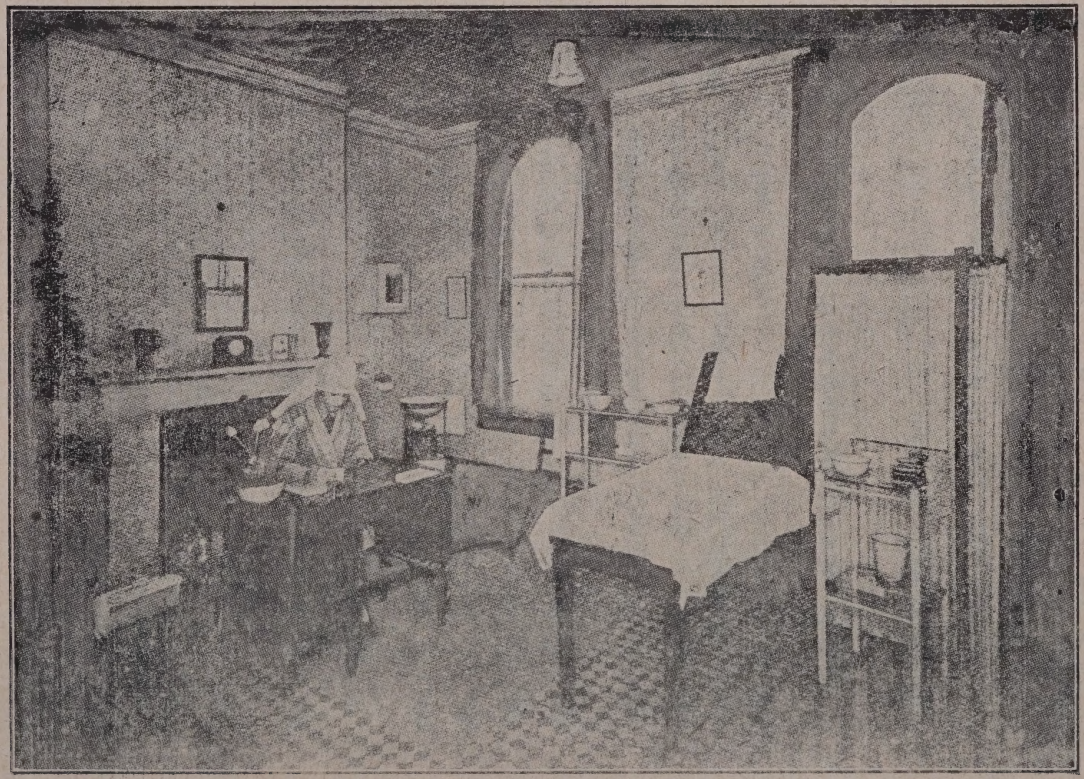
Phone : Archway 2981



A Consulting-Fitting Room at the Birth Control Advisory Bureau.

Condoms

All " Lam-butt " Condoms and " Lam-butt " Sheaths are tested by air pressure under microscopic examination, and every one is dated. Every Condom and Sheath is guaranteed to have been subjected to these tests on the actual day of sale, which is important.

No matter how thorough the method of testing may be, it is of no avail unless performed immediately before sale, as the extremely thin elastic deteriorates if kept long in stock.

SPECIAL TRIAL PACKET No. 1

No. 1a. Natural Seamless, plain end.

No. 2a. Natural Seamless, receptacle end.

No. 7. Featherweight Ivory, plain end.

No. 8. Featherweight Rose, plain end.

The "LAM-BUTT Featherweight Sheaths

These are of the SEAMLESS SILK FINISH variety, being the same quality as our "Lam-Butt" Special, but thinner. When worn they are scarcely perceptible.

No. 7.	**Ivory finish, plain**	**10/6 doz.; post 3d.**
No. 7a.	**Transparent finish, plain**	**15/- doz.** „
No. 8.	**Rose silk finish, plain**...	**12/6 doz.** „
No. 9.	**Ivory finish, receptacle end**	**12/6 doz.** „
No. 9a.	**Transparent finish, receptable ends** ...	**15/- doz.** „
No. 9b.	**Flesh silk finish, receptacle ends, extra fine quality**	**21/- doz.** „

A Sample of each will be sent on receipt of P.O. value 6/–. Post 3d. United Kingdom. Abroad extra. Value 7/9½d.

When ordering, the number only need be quoted.

Although these seamless silk finish are made in one size only, the rubber is so pliable and has such enormous stretching powers, that they are adaptable for most men. If too large need only be unrolled as far as required.

In cases where a larger or smaller size sheath is required, we recommend our No. 7B SILKY CONDOM, price 10/6 per dozen, post 3d., which is made in either small, medium, or large size—in plain ends only.

Apparatus for re-rolling Elastic Sheaths after use. Price 2/9, post 5½d. United Kingdom. "Contraceptalene," used in conjunction with the sheath. Price 3/6 per tube. Post 3d.

The "Lam-Butt" Special

Hand-made fine cream-coloured rubber. Every one guaranteed and reliable. Each may be used several times with safety.

No. 10.	**Receptacle ends ... ...**	**24/- doz.**	**Post 3d.**
No. 10.	**Plain ends ... ...**	**21/- doz.**	**„**
No. 10a.	**In Super Rose Elastic, receptacle ends only**	**27/- doz.**	**„**

When ordering, the number only need be quoted.

Apparatus for re-rolling Elastic Sheaths after use. Price 2/9. Post 5½d. United Kingdom.

This entirely new line will be known as the "Lam-Butt" Special. They are totally different to any of our other varieties, having a beautifully soft velvet-like surface.

As near perfection as possible.

ONCE USED—ALWAYS USED.

NATURAL SEAMLESS Silk-finish Sheaths

For those who require a cheaper variety than the featherweight.

Medium Size only.

No. 1a.	**Plain ends ... ...**	**7/6 doz.**	**Post 3d.**
No. 2a.	**Receptacle ends ... ...**	**9/6 doz.**	**„**

Samples 8d. and 10d. each. Post 2½d.

These natural seamless Sheaths are especially recommended by Michael Fielding in his book, "PARENTHOOD—DESIGN OR ACCIDENT."

No. 9b

The manufacture of this highly popular line ceased in 1940 and has now recommenced. Of flesh colour, delightfully thin, yet of great strength and silky texture, is the finest obtainable.

When used with " Contraceptalene " (see page 19), is practically imperceptible in use. **Price 25/- per dozen. Post 3d.**

When ordering, the number and size only need be quoted.

The "Lam-Butt" Cap

(or Short Sheath)

The shape of the " LAM-BUTT " WASHABLE CAP is scientifically correct, making it most comfortable and natural in use.

It is entirely hand-made, of fine cut sheet rubber.

Each cap may be safely used on a number of occasions, if carefully washed afterwards in warm water without soap, and dusted with french chalk to dry.

Made in small, medium, and large sizes.

Sample " Lam-Butt " Cap ... 2/- each. Post 2½d.

3 for 5/-. Postage 3d.

No. 7B
The "Lam-Butt" Silky Condom

The only Silk Finish Condom that is made in more than one size. Small, medium, or large.

White Elastic — plain ends only.
Price 10/6 doz. Postage 3d.
Samples 1/- each.

The "Lam-Butt Paragon" Sheath

This Sheath is intended for permanent use, being made of strong cut sheet rubber, with a moulded end of double thickness.

With ordinary care, one will last for twelve months, and we have testimonials from customers who have used one "PARAGON" SHEATH for two and even three years.

Having been introduced by the late Mr. E. J. Lambert as far back as 1891, we can truthfully assert it has withstood the test of time.

No. 20 ... ... Price 6/- each; 3 for 15/-. Post 3d.
Or in Transparent Rubber, 8/6. Reinforced. Post 3d.

Made in three sizes—Small, Medium, and Large.
Re-rolling Apparatus ... ... Price 2/9. Post 5½d.

[We recommend customers to use the re-rolling apparatus, if they wish to obtain the best service from the "Paragon" and "Sovereign" Sheaths.]

The Sheaths on this page are intended for those where economy is of the greatest consideration

The "Lam-Butt Sovereign" Sheath

We are introducing this Sheath to our customers' notice as a modification of our "Paragon" Sheath, which has commanded a large sale since 1891. LAMBERT'S "SOVEREIGN" SHEATH is much finer in texture than the "Paragon" Sheath, being manufactured from fine sheet rubber of a very silky nature, beautifully soft and pliable, and one Sheath may be used a number of times with perfect safety.

We strongly advise a trial of this Sheath, as the extremely soft nature of the rubber will recommend it to all who desire comfort with durability.

No. 21 ... ... Price 4/- each; 3 for 10/6. Post 3d.
Or in Transparent Rubber, 5/9. Reinforced. Post 3d.
Made in three sizes—Small, Medium, and Large.

The "Lam-Butt" Seamless Washable Sheath

No. 21A. In Medium size only. Price 4/-. Post 3d.

Silk latex quality, 7/6 and 10/6. Post 3d.

When ordering, the number only need be quoted.

UNSOLICITED TESTIMONIAL.

Moss Side, Manchester.

Dear Sirs,

Will you please send me a price list of Paragon Sheaths, which I wish to pass on to a friend.

I have been using your Paragon Sheaths for the last 25 (twenty-five) years and never had a single failure.

You may make use of this if you care, but omit name and address.

Please let me have list per return, marked "Private."

Yours faithfully, ——

(The original of this may be seen on request at our Office.)

200–202, Queensbridge Road, Dalston, London, E.8, England

The "Prorace" Occlusive Cap

(Registered)

AS RECOMMENDED IN "WISE PARENTHOOD" (ALL EDITIONS TO THE FIFTEENTH) AND OTHER MEDICAL BOOKS.

The "PRORACE" PESSARY is a simply-devised instrument of pure soft medicated rubber, to be worn by the female for supporting and covering the womb. It is constructed on a common-sense principle and strictly in accordance with the female organisation; can be worn any length of time with ease and comfort; and so accurately fits the parts that it adapts itself perfectly and no apprehension of its going too far or doing the slightest harm need be felt.

Can be supplied with or without the cord attachment, as this is not actually necessary.

Price ... ... 5/- each, with solid Rubber Rim.
Price ... ... 7/6 each, in extra strong quality.
Price ... ... 10/- each, Spring Rim.

Inland Postage 3d. Abroad extra.

Made in four sizes, known as Sizes 0, 1, 2, and 3, the smallest being Size 0 and the largest Size 3.

200–202, Queensbridge Road, Dalston, London, E.8, England

The "Lam-Butt" Dutch Cap

The Lambutt Dutch Cap is made in 18 different sizes and it is essential that the correct size should first be obtained by a fitting, either by a doctor or the nurse in charge of our Advisory Bureau.

She has been fitting these since 1928, and we can assure our customers that we have not received one case of failure from her fittings.

The Cap can be put in position before retiring and no matter how many times it is used, need not be taken out until the next morning and then only at the wearer's convenience.

It is not obvious to either husband or wife and is the nearest approach to the perfect and natural method that has yet been devised.

No trouble or worry, and complete safety once the correct size has been obtained.

These are being fitted by Clinics and Welfare Centres all over Britain, Certain Continental Countires and some Colonies.

Some people think that once a lady wears a rubber preventative cap, she cannot bear a child later. This is not so, as the records at our Advisory Bureau disprove this hundreds of times.

To those wishing to use a Lambutt Dutch Cap for spacing their families, we recommend a fresh fitting after each confinement as a larger size is usually required.

Owing to the shortage of steel, it is ESSENTIAL that customers return their old spring with order.

These can be re-tempered.

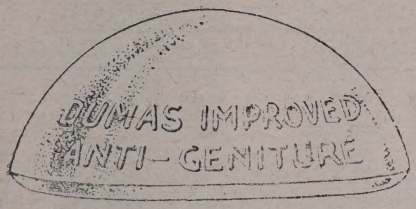
This does not apply to new customers.

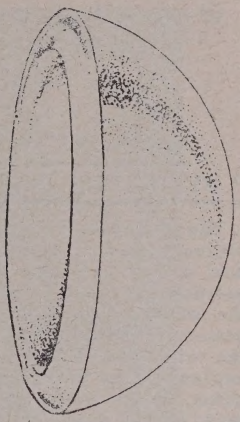
Especially mentioned in "MEDICAL ASPECTS OF CONTRACEPTION," *the Report of the Medical Committee appointed in connection with the Investigations of the National Birth-Rate Commission*, 1927.

Standard Quality, price 6/– each. Post 3d.
Super Quality, price 8/6 each. Post 3d.
"Contraceptalene" Jelly, 3/6 per tube. Post 3½d.
Abroad extra.

Registered **"Dumas"** *Trade Mark*

Anti-Geniture





This is the most easily fitted appliance for ladies who cannot be fitted with a Lambutt Dutch Cap.

It is usually considered, size 1 as being suitable for those having no children; size 2 for those with 1 or 2, and size 3 for those with larger families.

This appliance has been in use for over 50 years with great success. Generally known as the "Dumas," this appliance has been successfully sold by us since **1884**, and has in recent years been fitted at all the Birth Control Clinics throughout the United Kingdom.

The illustration of Dumas' "ANTI-GENITURE" shown in this leaflet is an exact reproduction of the medium size, which measures $2\frac{1}{8}$ins in diameter. The small size measures $1\frac{7}{8}$ins. and the large $2\frac{3}{8}$ins respectively.

Small sizes are usually suitable for those with no children, medium size for those who have already given birth to one or two children, while large size is usually only needed in cases where there have been three or more children. This is for the guidance of those who cannot visit a Birth Control Clinic for advice, as the success of the device largely depends on the correct size being obtained.

"ANTI-GENITURE," Complete, 15/-, in either Small, Medium, or Large size, including either Dumas Emollient or tube of Contraceptalene. Post 6d.

"THE BYMESTON"

(*Registered Trade Mark*)

THE "BYMESTON" METHOD—A combination of two of the most up-to-date and safest methods known.

Especially recommended in "PARENTHOOD—DESIGN OR ACCIDENT," by Michael Fielding.

REASONS WHY WE CLAIM THAT THE "BYMESTON" METHOD IS AN IMPROVEMENT.

The "BYMESTON" CHECK PESSARY is an improvement upon the ordinary pessary, because it has a small receptacle inside the cap to hold a contraceptive tablet. When the "Bymeston" Pessary is in position the tablet is just where it is wanted, right at the mouth of the womb. The old-fashioned method was to first adjust the cap pessary in position, and then insert a soluble pessary haphazard, with the result that the soluble pessary, when melted, would run from the vagina and be lost. The "Bymeston" method remedies this serious defect, as the contraceptive tablet, being inside the cap of the pessary, cannot escape when dissolved, and, furthermore, the "Bymeston" Pessary, with the tablet in position, can be adjusted two or three hours beforehand if desired, without fear of the tablet being lost.

"Bymeston" Tablets are non-greasy and of the effervescing type, forming a smooth, creamy foam immediately they come in contact with moisture.

Made in four sizes: 0, 1, 2, and 3, Size 0 being the smallest.

Can be supplied with or without cord attachment, as this is not necessary.

Prices of "Bymeston" Pessaries, complete with 1 dozen Tablets:

Spring Rim	**10/9.**	**Post 4d.**
Cheaper Quality, Solid Rubber Rim...	**8/3.**	„
"Bymeston" Pessaries (alone), without Tablets, Spring Rim	**7/6.**	„
Ditto, ditto, Solid Rubber Rim	**5/-.**	„
Spare Tubes of "Bymeston" Tablets, containing 1 dozen	**3/3.**	„

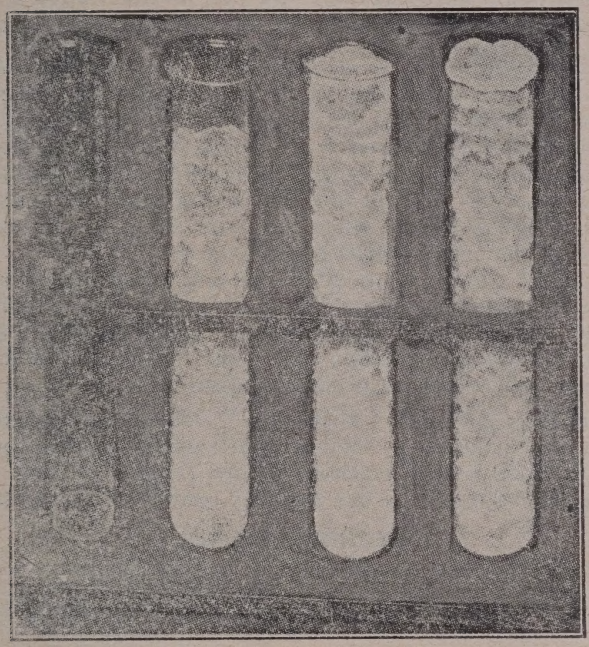
Please return all empty tubes.

200–202, Queensbridge Road, Dalston, London, E.8, England

The "Bymeston" Tablets

The volume and thoroughness of the foam formed is adequately shown by the experiment illustrated

1 2 3 4



A " Bymeston " tablet was placed into each of the four test tubes, and 2 c.c. of water added to tubes numbers 2, 3, and 4. The mass of foam shown was produced in the space of two minutes, and the foam retained its density for a considerable time. The " Bymeston " tablet in No. 1 tube was left intact for the purpose of comparison.

IMPORTANT.—" Bymeston " tablets must be kept in a dry place in their original tube, tightly corked, away from the light.

" Bymeston " tablets can be used in conjunction with any make of check pessary or sanitary sponge.

Trade Mark **"BYMESTON"** *Registered*

Brand

Contraceptive and Antiseptic Tablets

ESPECIALLY RECOMMENDED FOR USE IN THE TROPICS, AS THEY ARE QUITE UNAFFECTED BY CLIMATIC CONDITIONS.

These tablets are so manufactured that on dissolving in moisture they effervesce, and evolve hydrogen peroxide, which, in contact with organic matter, is decomposed with the liberation of oxygen. It is the combined action of hydrogen peroxide and oxygen which kills the spermatozoa. It will be observed from this that a very powerful antiseptic solution is presented, which has the effect of thoroughly cleansing the entire female genital tracts.

It might further be pointed out that these tablets afford protection against innumerable other risks. Also a solution of one " Bymeston " tablet in water will give a thoroughly effective antiseptic solution which may be used periodically to cleans the organs as occasions arise.

IMPORTANT.—As " Bymeston " Tablets are not affected by climatic conditions, they are particularly suitable for use as a preventive to conception *in the Tropics,* having none of the disadvantages of the ordinary soluble quinine pessary.

DIRECTIONS FOR USE.

Place a " Bymeston " tablet as high as possible into the vagina, *not less than three and not more than sixty minutes* before intercourse. If desired, the tablet may first be dipped in water, but this is not absolutely necessary.

Do not douche immediately after intercourse, but a douche may be used several hours afterwards, if desired.

The tablets should be kept tightly corked, and away from the light, where they will retain their properties almost indefinitely.

ESPECIALLY RECOMMENDED BY MICHAEL FIELDING IN HIS BOOK, " PARENTHOOD: DESIGN OR ACCIDENT."

Packed in Glass Tubes containing 12 Tablets.
Price 3/3 per Tube. Post 3d.
Please return all empty tubes.

200–202, Queensbridge Road, Dalston, London, E.8, England

"Lam-Butt" Contraceptalene

Especially mentioned in "MEDICAL ASPECTS OF CONTRACEPTION," the Report of the Medical Committee appointed in connection with investigations of the National Birth Rate Commission, 1927.

Contraceptalene is a thick fluid jelly, prepared according to a formula supplied by a well-known Harley Street doctor, and is highly recommended for use as a combined contraceptive and lubricant, intended to be used in conjunction with condoms, rubber cap pessaries of all kinds, and sanitary sponges.

Contraceptalene is perfectly harmless to health, is a non-irritant, and is absolutely trustworthy even in the most inexperienced hands.

DIRECTIONS FOR USE.

CONDOMS.—The comfort in wearing a sheath is greatly enhanced if a little Contraceptalene is smeared over the top of the male organ itself and also over the outside top of the sheath just before use.

RUBBER CAP PESSARIES.—When using Contraceptalene, smear the cap with the preparation, inside and out, before insertion, especially round the rim.

SANITARY SPONGES.—The sponge should be first softened in warm water, then squeezed almost dry. Contraceptalene should then be smeared evenly over the whole surface of the sponge, especially at the sides.

After use the screw cap should be replaced on the tube of Contraceptalene, also the rubber cap should be placed over the end of the vaginal tube. Keep in a cool place.

Price complete ... 6/-. Post 5d.
With ebonite unbreakable Vaginal Pipe.
Contraceptalene only ... 3/6 per tube. Post 3½d.

200–202, Queensbridge Road, Dalston, London, E.8, England

Special Introducer for using Soluble Pessaries—
5/- each. Post 3d.

SPECIAL NOTICE

We are frequently asked if it is not a fact that there is one "blank" or "dud" Soluble Pessary in every box, and we take this opportunity of assuring customers that this is not the case.

In cases where the "Lam-butt" Soluble Pessaries, also "Prorace" Solubles, are required for use abroad, particularly in hot climates, we supply them with a higher melting point than usual, suitably packed.

Customers who wish either to send or take the pessaries abroad should mention the fact when ordering. No extra charge is made for soluble pessaries with a higher melting point.

The cocoa butter which we use in the manufacture of our soluble pessaries for the home trade has had the objectionable smell extracted by a special process, and they are therefore perfectly odourless.

A BOOK RECOMMENDED FOR READING

ON THE SUBJECT OF

BIRTH CONTROL:
"PARENTHOOD"

A MANUAL OF BIRTH CONTROL

By MICHAEL FIELDING

With a Preface by H. G. WELLS

Revised and greatly extended edition, with diagrams, bibliography, information as to clinics, etc.

" When the adult citizen has gone through these pages he or she will have all the mastery of his or her sexual self that knowledge can give."

—From H. G. Wells' Preface.

" More likely to be of practical value to the average married couple than anything I have seen."

—Norman Haire in " The Saturday Review."

" One of the most impartial and balanced discussion of the practical and technical aspects of birth control that has yet appeared."

—" The Lancet."

" The handling of this delicate subject is beyond reproach."

—" The Medical Times."

PAPER 3/- **Cloth 3/6** **Postage 4d.**

THE SEXUAL SIDE OF MARRIAGE

By M. J. EXNER, M.D.

Consultant to the American Social Hygiene Association.

Dr. Exner deals with great frankness, yet in complete good taste, with the intimate relationships in marriage, especially at the crucial points at which ignorance and mis-information commonly do serious or disastrous damage. Here is an understandable, specific sailing chart, free from sentiment or hypocrisy, for the guidance of those who would achieve marriage at its best.

Price 5/6 Post 5d. extra.

With four-page illustrations.

The "Lam-Butt" Ladies' Syringe

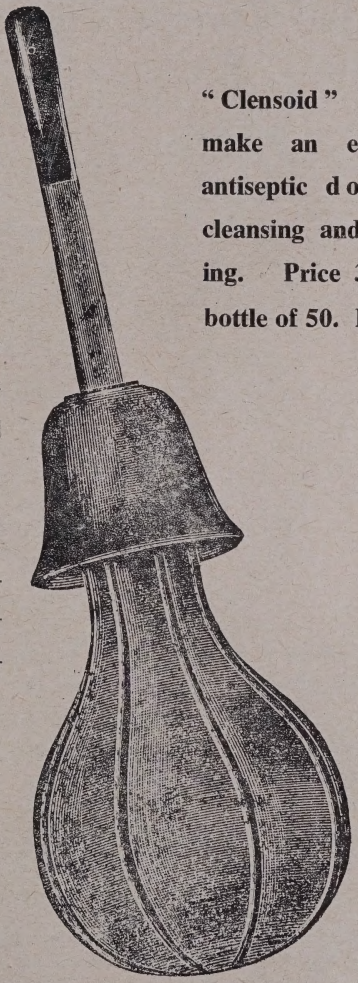
With Adjustable Rubber Guard. Very powerful and effective.

Fitted with an extra large size bulb, holding 8 ozs. of fluid.

This Syringe may be used in bed without soiling the bed linen.

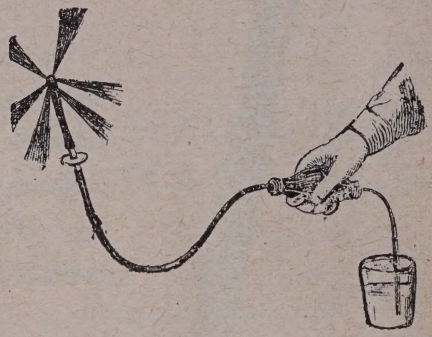
None of the injection can escape owing to the special Rubber Guard.

Price £1 1s. 0d.
Post 8d.



"Clensoid" Tablets make an excellent antiseptic douche, cleansing and soothing. Price 3/6 per bottle of 50. Post 3d.

The "Lam-Butt" Improved Vertical and Reverse Current Syringe



The improved appliance is a powerful enema of Higginson's pattern, fitted with a new Vertical and Reverse Current Vaginal Tube, producing a continual current treble the power of the ordinary tubes used for this purpose, thoroughly cleansing the parts it is applied to. It is intended to be used with the injections mentioned below, and if the instructions are followed it can be used with success and safety.

Complete with directions for use:

Drab Syringe, in card box 8/6

TESTIMONIALS

Yorkshire, 1941.

Dear Nurse,

It is now two months since I visited your Bureau and would like to tell you how much happier I have been. I have used the Dutch Cap with ease and comfort and now feel I have no cause for worry. In fact ever since I consulted you I have had confidence and no anxiety.

Yours faithfully,
(Mrs.) E.W.

Barnet, Herts, 1942.

Dear Nurse,

Thank you for the parcel safely received this morning.

I much appreciated your visit here and the efficient kindness you have shown to me on each occasion you have fitted me. I shall not hesitate to tell any of my friends about your service.

Yours sincerely,
(Mrs.) B.I.

London, E.7, 28-1-47.

I should like to take the opportunity of telling you how grateful I am to you for your advice and help. I find your method of Birth Control very satisfactory and, if the occasion arises, I shall have no hesitation in recommending your Bureau to my friends.

Yours faithfully,
(Mrs. B.E.

Blackpool, Sept., 1946.

I must add my praise for your wonderful cap. The sense of security I have since using it is beyond words. My husband is as delighted as I am. Please accept our thanks.

(Mrs.) K.T.

London, S.E.1, 17th July, 1946.

I would like to say how satisfactory I'm finding the cap which you fitted me with a year ago I do not think there is any other method to equal it.

(Mrs.) J.P.

Englefield Green, 23rd August, 1946.

I would just like to tell you how comfortable and easy the cap has been to use, and to thank you again for your help and kindness.

(Mrs.) M.H

Sunningdale, Berks., 14th August, 1946

Dear Nurse,

You fitted me for my cap in the early part of the year just after my marriage and I would like to take this opportunity to thank you for your kindness and help. Both my husband and myself are very pleased we asked your advice. It is wonderful to be free of worry and, at the same time, to wear something which is perfectly safe in its method of prevention.

(Mrs.) J.M.M.
